

World Water Day (WWD) 2024

Six Mile Run State Park

Summary Report

Arundhati Sinha, coordinator of the **ROW** team in NJ, arranged a trash cleanup event on **Saturday, April 27**, at a nearby stream named Six-Mile Run. This stream is a tributary of the Millstone River that drains a large area in central Franklin Township, Somerset County, and the western portions of North Brunswick and South Brunswick Townships in Middlesex County, New Jersey, United States

The poster features a blue background with a sunset over water. In the center, a globe is surrounded by the text "UN WATER" and "22 MARCH WORLD WATER DAY". To the left, a logo for "Water for Peace" is visible. To the right, a logo for "Rivers of the World FOUNDATION" is shown. The text "Come!!! Let us Take Steps" is on the left, and "Save Water Save Streams" is on the right. At the bottom, contact information for the local coordinator and HQ is provided, along with the website URL.

ROW-NJ Team, April, 2024

Results from the activity:

- A total of 9 participants comprising of students from middle school, high school and parents participated in the cleanup event.
- Six Mile Run primary watershed has a total area of 7.484 square miles (19.383 km²), including 7.476 square miles (19.363 km²) of land and 0.008 square miles (0.020 km²) of water (0.10%). The group cleaned up about 3 miles of the area.
- To survey the area drone pictures of the river and trail were taken..
- Six Mile Run is generally between rocky and muddy terrain. The streambed is rocky with a muddy covering. It is quite deep in many places.
- Plastic bottles, cups and spoons, glass bottles were found in the area.
- 7 bags weighing around 30 pounds of trash were collected.
- The trash was disposed of at the site dumpster.
- The group made a pledge to engage in this river cleaning activity every quarter and spread awareness in the community.

Kudos to the participants for their dedication and enthusiasm in protecting their streams and rivers.
